Welcome to Namecheap.com Hosting

Welcome Dennis Schmidt!

Thank you for signing up with Namecheap.com Hosting. Your hosting account has been successfully created on the server. Your account information is provided below.

ACCOUNT INFORMATION:

Plan: Value Plan
Price: \$42.66
Domain: compassioncounseling.org
IP Address: 199.188.205.19

Before starting to work with your website, please, change the nameservers for your domain to the following, otherwise your site will be inaccessible through the web:

NOTE: If your domain name is registered with another company please contact your registrar for assistance.

NAMESERVER INFORMATION:

dns1.namecheaphosting.com
dns2.namecheaphosting.com

Please have a look at our video tutorial [Name Servers Set Up](#) if you need more help.

IMPORTANT! Please note that it can take up to 24-72 hours for the changes to propagate over the Internet. During this period your site can be inaccessible through browser.

Date: Wednesday, February
22, 2012 12:35:20 AM

[Homepage](#)

Billing Login

11400 W. Olympic Blvd.,
Suite 200
Los Angeles, CA
90064

CREATING A SITE

Now you can start uploading your site content. Please use the following login information:

CPANEL LOGIN INFORMATION:

Domain: compassioncounseling.org

Username: spetru

Password: ejacrapofrodesuchidihasao

cPanel: <http://compassioncounseling.org/cpanel> or

<http://199.188.205.19/cpanel> if DNS propagation has not been completed yet.

FTP INFORMATION:

FTP: 199.188.205.19

Username: spetru

Password: ejacrapofrodesuchidihasao

In order to upload and manage your files you can make use of:

- File Manager in your cPanel. Please refer to [How to use the File Manager](#) video tutorial.
- FTP client. For ftp client the following settings should be used:

FTP CLIENT DETAILS:

Server Address: 199.188.205.19

Username: spetru@compassioncounseling.org

Password: ejacrapofrodesuchidihasao

Mode: passive

- * Files for your main domain have to be uploaded to `/home/spetru/public_html/`
- * Files for addon domains to `/home/spetru/public_html/addon_domain/`
- * Files placed directly into your home directory `/home/spetru/` will not be visible on the Internet.

NOTE: Make sure you have uploaded index page into your public_html directory.

In order to build a website you can make use of **Softaculous**, Well-known one-click software installer which allows to easy install wide rage of different scripts. You can check and install them in cPanel > Software/Services > Softaculous.

If you need any assistance in getting started with your hosting account we advise you to check the following article: [Getting Started](#)

BILLING:
